

# Missouri Market Development Program's

**EIERA**  
Environmental Improvement and Energy Resources Authority  
2004 Edition

Recycled Products  
Directory

# INTRODUCTION

This directory was developed to help consumers locate vendors of recycled-content products that are being manufactured and distributed in Missouri. It is also intended to support businesses in Missouri that have invested in technologies that convert materials once disposed of as waste and use them to make value-added products.

Staff from the Environmental Improvement and Energy Resources Authority (EIERA) Missouri Market Development Program compiled the information included in the *Missouri Recycled Products Directory*. This publication is not an endorsement for any product, its availability, price or quality, but simply a guide to some of the recycled products available for sale in Missouri.

This *Directory* does not include all recycled products that are offered by your local retailer. There are many more vendors of recycled products in Missouri than those listed here. If you are a recycled product vendor in Missouri and would like to be listed, please complete and return the data sheet in the back of the *Directory*. There is no charge for this listing.

When you come across this symbol  you will know that product has been "remade" in Missouri!

## Why Buy Recycled?

Buying recycled products helps "close the loop," creating a demand for the materials recovered in recycling collection programs. For recycling to work, recyclables collected must be returned to the economic mainstream in the form of products people buy and use. When you buy recycled, you can help recycling create jobs, build more competitive manufacturing industries, add value to Missouri's economy and protect the environment all at the same time.

Product(s)

**Organic red wiggler composting worms; worm castings; vermicompost and worm tea**

Description

Worms' diet consists of recycled paper, cardboard, sawdust, yard clippings, and various organic waste including horse, cow, turkey and chicken manure.

Comments

Worms are used to start your own vermicomposting from your family's table scraps to yard and garden composting. Worm castings and vermicompost are excellent soil amendments that are non-toxic, odorless, and retain three times their weight in water. Research has shown worm tea can suppress fungal disease in a variety of plant species and aid in disease prevention on plants as well. All the products serve to promote the health and growth of plants nature's way.

**Super Cyclone license plate purse**

Super Cyclone license plate purses feature two authentic license plates wrapped around 6-inch chrome hubcaps.

100% real recycled license plates, recycled rubber handle and recycled rubber/bottlecap snap closure.

Every plate is different. We can't guarantee a specific style with a requested state. For example, Arizona may have the desert scene or be red with white letters. But they all look cool!

## Littlearth

***"designers of the coolest recycled accessories on the planet."***

*Last year, Littlearth actively recycled—among other things—more than 30 tons of rubber, 40,000 license plates and 1/4 million bottle caps.*

*Founded in 1993 by husband-and-wife team Rob Brandegge and Ava DeMarco, Littlearth is committed to recycling the world's pop culture. Littlearth goods and merchandise can be found in over 1,000 stores around the world. In Missouri, look for Littlearth products at the following stores;*

*St. Louis Area:*

*Splash (636) 532-8085*

*Hot Belts (314) 355-7400*

*Ladue Pharmacy (314) 993-4031*

*Blues (314) 863-2121*

*REC Club - Union Station (314) 367-0590*

*Chic Pursenality (636) 541-0604*

*Xtreme Nation (636) 519-0300*

*Southeast Area:*

*Charmful Creations (573) 332-8877*

*High's Gift Shop (573) 264-0038*

*Southwest Area:*

*Peace Frogs (417) 339-3764*

*Body Bronze Tanning (417) 753-5675*

*Kansas City Area:*

*Shop Beautiful Gift Shop (816) 444-3322*

*Central Area:*

*Poppy's (573) 442-3223*

*Littlearth's brand of hip fashion accessories and gift items, created from recycled materials, has enormous appeal to a wide range of people, from fashion-conscious teens to eco-conscious baby boomers. Littlearth has established a loyal following by offering products that appeal to this group's design aesthetic, sense of individuality and concern for their world.*

*Littlearth has been featured on Oprah!, in the Wall Street Journal, CNN and Inc. Magazine. Their accessories have been worn by the stars of such TV shows as Party of Five, Melrose Place, ER, MTV's VJ's, and the band members of Van Halen, and have been seen on celebrities everywhere, from Chelsea Clinton to Brooke Shields to Jay Leno.*

*The Missouri Market Development Program thanks Littlearth for helping to make this directory more valuable to Missouri residents. All information is used with Littlearth's permission.*

# Clothing and Accessories

## Concord Custom Cleaners & The Environment

*Reusable Garment Bag - purchase the reusable garment bag that Custom Concord Cleaners offers and help participate in the effort to reduce environmental waste.*

*Below are the steps to reducing waste today;*

♦ *Identify your bag - complete the name tag and insert it into the plastic holder, attach the plastic holder to the drawstring on your Reusable Garment Bag.*

♦ *Return Garments Conveniently - drop off garments to be cleaned, along with your Reusable Garment Bag, at Concord Custom Cleaners for prompt, quality service. The garment bag will be used to package and protect your cleaned and pressed clothes. (NOTE: the Reusable Garment Bag can be converted to a convenient laundry bag for carrying clothes.)*

♦ *Recycle Hangers and Plastic Bags - We encourage you to recycle Concord hangers and Concord plastic bags. Simply place them in the Reusable Garment Bag along with your garments to be cleaned upon returning to Concord Custom Cleaners.*

### Additional Uses

*Laundry Bag - zip Reusable Garment Bag securely. Turn the bag upside down. Tuck the bottom half of the bag into the top half and pull the drawstrings. You now have a convenient laundry bag, great for carrying garments to Concord Custom Cleaners.*

*Clothes Hamper - when the Reusable Garment Bag is folded into a laundry bag, it can be hung by the grommet located next to the drawstring. Hang it on a hook and toss in clothes to be cleaned.*

*Storage Bag - Excellent for in-home storage of your seasonal and special care items.*

*Thank you! We hope you enjoy using your Reusable Garment Bag and look forward to participating with you in an effort to reduce environmental waste. Together, we can make a difference. Look for Concord Custom Cleaners throughout Missouri.*

*The Missouri Market Development Program thanks Concord Custom Cleaners for helping to make this directory more valuable to Missouri residents. All information is used with Concord Custom Cleaners' permission.*

**SCIPS (Structural Concrete Insulating Panel Systems)**

The SCIPS system uses 100% recycled polystyrene, 50% recycled steel and 40% fly ash concrete in its manufacture and is itself fully recyclable.

SCIPS can be used for foundation footings, floors, roofs and interior or exterior walls. SCIPS are easily assembled by semiskilled or unskilled labor and is cost effective due to tighter construction, better insulation properties and durability when compared to other methods.

# Construction Home Improvement

## **UltraTouch Natural Cotton Fiber Insulation**

*UltraTouch is made from high quality natural fibers. These fibers contain inherent qualities that provide for extremely effective sound absorption and consistent thermal performance. UltraTouch contains no chemical irritants and requires no warning labels unlike traditional products. There are no outgassing or VOC concerns when using UltraTouch as it is safe for you and the environment. UltraTouch DOES NOT ITCH and is very easy to handle and work with.*

*UltraTouch is also a Class-A Building Product and meets the highest ASTM testing standards for fire and smoke ratings, fungi resistance and corrosiveness. UltraTouch's patented proprietary process treats each individual fiber with an effective fire retardant that also impedes the growth of fungus, mold, and resists pests.*

*By installing UltraTouch, you are making both your building and the environment a safer place to live, work, and enjoy.*

*All of our products consist almost entirely of natural fibers that are 100% recyclable, reducing landfill waste. These natural fibers are also 100% post-industrial, which assures that they are free of contaminants.*

*For more information on Bonded Logic or this product go to [www.BondedLogic.com](http://www.BondedLogic.com).*

## "The Original" Authentic Roof

*Authentic Roof is the first true environmentally responsible building/roofing material for the construction industry made from Recycled Material. It is also completely recyclable. Specifically designed and engineered to be an improvement on real slate, it weighs and costs less but looks and lasts the same with the exception of some precision crafted enhancements for its usability and performance.*

*There are many benefits of TPO, such as energy savings, clean manufacturing, impact resistance and recycling to name a few.*

*Authentic Roof is available at the following roofing suppliers in Missouri: 84 Lumber, Bradco Supply Co., Meeks Building Center, Complete Roofing, Pioneer Home Center, Home Depot, Lowes, Crown C Supply and Progressive Building Materials. If your roofing supplier does not carry Authentic Roof, ask them to contact Crowe Building Products to price it for you.*

*For more information on Authentic Roof please visit [www.authentic-roof.com](http://www.authentic-roof.com). Remember, if it's not from Crowe, then it's not Authentic!*

*The Missouri Market Development Program thanks Crowe Building Products for helping to make this directory more valuable to Missouri residents. All information is used with Crowe Building Product's permission.*

## The Freecycle Network

Got a couch you don't need any more? Need an end-table, a planter, or a bicycle wheel? Check out The Freecycle Network (<http://www.freecycle.org>) a non-profit inspired network of regional email listservs where people can post items they want to get rid of and find items they need. The only catch: everything must be free. Freecycle listservs are now available in 31 communities, and they're looking to grow. If you don't have one in your area, why not start one? The Freecycle network is organized by "Downtown Don't Waste It," a nonprofit recycling organization in Tucson, Arizona, where the first Freecycle listserv was started in spring, 2003.

## Appliances, Furniture, Dishes and Rugs

*If they are in good shape, contact women's shelters and groups providing transitional housing or helping people set up their first home. Alternatively, check with local churches or the city's or county's recycling office to see whether they know where your donation can be used.*

Various merchandise made from recycled components.

### Did you know?

*Five recycled plastic bottles make enough fiber fill to stuff a ski jacket!*

*We thank Kingdom Projects for the permission to use the above "Did you know?" fact.*

## Kellogg & The Environment

*Did you know that almost all of Kellogg cartons are made of 100% recycled fiber, with at least 35% post-consumer material? Most of the recycled material is made up of a mixture of newspaper, office paper, cardboard and unprinted waste paper from publishers and printing companies. In many communities, our cartons are recyclable. Check your local collection program to find out.*

*Food and packages with minor quality problems - too many yellow **FROOT LOOPS®** cereal pieces in a box or unevenly glued carton flaps — are donated to charitable organizations. Other waste food material is sold to pet food companies and farmers for animal feed. An innovative waste management program at our largest plant in Battle Creek, Michigan uses special equipment to split unusable, unopened cartons to separate the carton, contents, and liner into separate bins for recycling.*

*The Missouri Market Development Program thanks Kellogg Company for helping to make this directory more valuable to Missouri residents. The above information is used with permission from Kellogg Company. **FROOT LOOPS®** and **K DESIGN** are trademarks of Kellogg Company. ©2004 Kellogg NA Co.*

Brentwood, MO 63144

(314) 968-7744

www.wholefoodsmarket.com

**The Preserve® Toothbrush; Green Choice Premium cat litter; tissue and toilet paper**

Sine October 2001, all of the manufacturers making private label products for Whole Foods Market have used ingredients derived from non-genetically engineered crops. Our stores carry hundreds of brands of products (other than our own Private Label.) If you have a question about a particular product, please ask for assistance at the store where you shop.

# JanitorialSupplies

## Kimberly-Clark & The Environment

At Kimberly-Clark, we've implemented a number of initiatives to reduce packaging waste and encourage

the recycling of packaging materials. We use both pre- and post-consumer recycled paper to make many of our packaging materials, such as tissue boxes and the cardboard tubes inside paper towels and bathroom tissue. Many of these materials are made with 100% recycled paper. Plastic materials also are used to package some of our products, as a means of keeping products clean and sanitary for personal use. Many of the plastic materials used in packaging are recyclable, and your local recycling center can provide you with information about recycling various types of plastic within your community.

Recycled fiber is used to manufacture many of our professional, private label and value products, where product performance and affordability are the most important attributes to consumers. For example, some brands of paper towels contain a minimum of 85% pre- and post-consumer recycled fiber, while some commercial tissue products use 100% recycled fiber. For our premium brands of tissue, we use virgin wood pulp to provide the softness, strength and absorbency that consumers expect from these products. In addition, secondary fiber can only be recycled five or six times before it becomes unsuitable for further use, so there will always be a need for virgin pulp. However, we are currently researching ways to use recycled paper in more of our tissue products while maintaining the quality and softness that consumers prefer.

The Missouri Market Development Program thanks Kimberly-Clark for helping to make this directory more valuable to Missouri Residents. The above information is used with permission from Kimberly-Clark.

## **Junk Mail & The Environment**

*Junk mail may seem as inevitable as death and taxes, but with a little patience there are effective ways to tackle the problem. The Internet Consumer Recycling Guide provides clear, simple and proven reduction techniques. About 20 minutes investment now will clear the junk for two to five years. There is a lot you can do to reduce the cost to the environment and your own time, go to [www.eco-artware.com](http://www.eco-artware.com) then click on recycling resources.*

*The amount of paper junk mail sent each year in the USA is staggering — some 4 million tons, nearly half of which is never opened.*

*Even though junk mail can often be recycled, recycling is second best to reducing need. Much junk mail uses virgin paper, often is of types with poor recycling value and toxic inks. Recycling itself takes energy and resources and has its own impacts on the environment. Reduction, where possible, is the far better choice.*

We thank eco-artware for the permission to use the above information.

Product(s)

**Organic red wiggler composting worms; worm castings; vermicompost and worm tea**

Recycled Content

Worms diet consists of recycled paper, cardboard, sawdust, yard clippings, and various organic waste including horse, cow, turkey and chicken manure.

Comments

Worms are used to start your own vermicomposting from your family's table scraps to yard and garden composting. Worm castings and vermicompost are an excellent soil amendment that is non-toxic, odorless, and retain three times their weight in water. Research has shown worm tea can suppress fungal disease in a variety of plant species and aid in disease prevention on plants as well. All the products serve to promote the health and growth of plants nature's way.

## Dell & The Environment

### **Dell believes that no computer should go to waste!**

Wondering what to do with your old computer equipment? Dell Recycling offers computer owners a variety of environmentally sound, convenient and affordable options for unwanted computers - and the equipment does not have to be from Dell. Dell Recycling accepts any make or model of computer, notebook computer, monitor, printer or peripheral device.

### **Donate**

Dell provides consumers a donation option for old computers. When you are ready for a new system there are neighbors in your community who could make use of your old one. Through Dell Recycling, consumers can donate their computers to the National Cristina Foundation to help disabled and economically disadvantaged children and adults in your own community. The foundation will pick up your computer at your door and put it to good use in your community. Find out more at <http://www.cristina.org/dsf/dell.ncf>

### **Recycle**

If recycling your computer is your preference, Dell offers an environmentally friendly method to dispose of outdated computer equipment that no longer has useful life. Dell is happy to accept any brand of computer, keyboard, mouse, monitor or printer. And Dell will pick it up at your home - all for only \$15 per unit. Visit the [Dell Recycling](http://www.dell.com/recycling) website for more information.

The Missouri Market Development Program thanks Dell for permission to use the above information and helping to make this directory more valuable to Missouri residents.

**RETHINK, INK**  
An Ink Jet and Laser Cartridge Recycling Program for Schools  
Donate to Educate

**School Recycling Program  
Benefits All**  
by RETHINK, INK.

The **RETHINK, INK Recycling Program** is designed for programs to:

- n Earn money collecting empty laser and ink jet cartridges and used cell phones. The more items collected, the more money your program can earn!
- n Teach youth the importance of environmental responsibility and conservation.
- n Increase your organization's visibility in the community by being a collection center for the recycling of these cartridges. **LEARN HOW YOU CAN RETHINK, INK!!**

**REMEMBER: Don't miss the following opportunities to spread the news about recycling: Back to school night, parent newsletters, PTA/PTO meetings, and cell phone/cartridge drives. Each cartridge thrown away at parent's home or workplace could be extra dollars for your program!**

If you have questions about this program please call: Russ Thomas at (866) 473-8446 or email at [rthomas@oprausa.com](mailto:rthomas@oprausa.com)

101 West 31st Street \* Kansas City, MO 64108

**Office equipment (computers, printers, fax machines, copiers, projectors and phone systems)**

Electronics recycling.

We collect discarded and surplus business equipment from local, regional and national businesses. We bring this equipment into our 50,000 square foot warehouse, refurbish, rebuild or repair the items if necessary. The equipment is then made available to our primary concern - The Nonprofit Community, and to the general public as a secondary market. Sales to the secondary markets help keep our prices lower to charities.

## Recycled Plastic Picnic Table

*This hexagon shaped picnic table is made from recycled milk jugs and plastic packaging that would normally be destined for a landfill. Our durable plastic lumber never*

*needs to be painted and will never rot, splinter or split. Since it requires no maintenance you save time and money. This table is highly resistant to graffiti, but should it become marred, commercial cleaners, pressure washers or paint thinner may be used to restore the surface. An umbrella hole is standard on this table. Ships knocked down for freight savings. 39" wide hexagonal tabletop. Specify top/base colors of Cedar/Brown, Cedar/Hunter Green or Almond/Brown. Contact Upbeat Inc. about this product or any of the other recycled content products they carry.*

*The Missouri Market Development Program thanks Upbeat Inc. for the above image and information.*

*This is the ST-110 Aluline. Made from aluminum tubing with slats of Origins 501 Confetti. For a better look at the Origins Confetti and other color options visit Yemm & Hart at [www.yemmhart.com](http://www.yemmhart.com)*

**Archery targets and boards**

We use recycled paper (approximately 30%) and wood chips from sawmills that would normally be burned. We use sawdust for fuel.

See this company in its other category: construction/home improvement

## Bicycles

*Donate your old bike to a regional Yellow Bike program. Many local advocacy groups in towns both large and small have started a Yellow Bike program, refurbishing workable thrown-away bikes that are then painted bright yellow both to identify them and to prevent theft. The bikes are left in downtown areas to be used by any citizen for downtown errands or transportation. Citizens are asked to return the bikes to a public bike rack or other public place after they ride them, so other citizens can use them. Many programs also sponsor a kid's bike program, where bikes are reconditioned for children, or kids learn bike mechanics and fix up their own. Just search for "yellow bike project" on the web, or see if your community is listed on the International Bicycle Fund's Community Bicycle Programs page (<http://www.ibike.org/encouragement/freebike.htm>)*

**ReUSE A SHOE**

*Nike collects shoes - both post-consumer, non-metal containing athletic shoes of any brand and Nike shoes that are returned due to a material or workmanship flaw- separates the three main materials, and grinds them up. (We recycle and reuse 100% of the materials from post-consumer and defective athletic shoes that are currently able to be recycled.) We're left with three distinct types of Nike Grind material (upper fabric, midsole foam, and outsole rubber), each of which is used in a different way to make new sports surfaces like soccer and football fields, basketball and tennis courts, tracks and playground surfacing. In addition, we also now use some of the byproducts from the manufacturing of outsoles of new Nike shoes as Nike Grind rubber material. For more information on the Reuse-A-Shoe program go to [www.nikeresponsibility.com](http://www.nikeresponsibility.com)*

*The Missouri Market Development Program thanks Nike for the permission to use the above information and for helping to make this directory more valuable to Missouri residents. The Swoosh design, Reuse A Shoe, and Sustainability logo are trademarks of Nike.*

## Village Glass Works

315 North 10th Street  
Columbia, MO 65201

(573) 443-0393

www.villageglass.com

**Cheeseboards from melted wine  
bottles**

We produce original, one of a kind  
works of art as well as replacement  
pieces for bent glass shades. We  
can design and manufacture a set  
of salad plates from the glass of  
your choice or fuse and slump a  
bowl to your specifications.

*Our kiln fused wine  
bottles make great  
cheese serving trays and  
the encased copper loop  
allows you to hang one  
on the wall or in a win-  
dow as a suncatcher.  
The addition of a fused  
glass cheese spreader  
sets our boards apart  
from others you may  
have seen.*

## "Journals That Memories Are Made Of..."

The "Write It Down" series is an expanding line of one of the most unique journals on the market today. Whether you are an avid Traveler, Camper, Boater, Golfer, Fisherman, Hunter, Gardener etc. or just enjoy keeping a personal journal, the "Write It Down" series offers a wide variety of over sized spiral bound journals.

The Writer is guided with suggested phrases, which are unique to each title. Many people have good intentions when it comes to keeping a journal, it's getting started that's the hard part. Our journals make you want to write. They hold more memories than photos. In Missouri, look for Journals Unlimited at the following stores;

## Good For Your World The Original Plastic Basket Sleeve

*The original plastic baskets are made of a plastic material that is derived from a patent-pending process of recycling discarded plastic items. That's good for the environment! When it's good for the environment it is good for the world.*

*The original plastic baskets are also good for your personal world. Being made of plastic they are weather durable which means, unlike a wooden basket, they can be used outdoors. They can stay outdoors to bring beauty to your world all year long. The landscaping and decorating possibilities are endless! Use them on a porch, patio, or deck, around the pool, yard, or flower bed; a base for a mailbox, flagpole, or bird feeder. Or, move them indoors for one of the most popular uses... the Christmas tree! The original plastic baskets will make your world a more beautiful place to be, and it will stay beautiful for years because our baskets contain UV protection that keeps them from fading in the sun. And of course, being plastic, they will last a lifetime.*

*The original plastic basket is available in Missouri at the following locations;*

*Clinco Industries, Inc.  
1205 West Grand Avenue  
Cameron, Missouri 64429  
Phone: (816) 632-3966*

*Jerry Landis  
26289 Maine Drive  
Lebanon, Missouri  
Phone: (417) 588-1626 or (417) 531-7621*

*Cozy Creek Candles  
Old Highway 13 North  
Springfield, Missouri 65802  
Phone: (417) 833-8879*

*For more information or to view the variety of baskets available, visit [www.basketsleeves.com](http://www.basketsleeves.com) or contact one of the above distributors.*

*The above information was provided by Jerry Landis, a distributor for The Other Basket. The Missouri Market Development Program thanks both Jerry Landis and Roy W. Krasky, owner of Krasco Inc. Basket Factory Outlet Shop, for helping to make this directory more valuable to Missouri residents.*

## Unilever & The Environment

*Packaging is an integral part of the product and the first point of contact with the brand for the consumer. It protects the product from damage and contamination as well as being aesthetically pleasing. It helps to convey safety and marketing information. Inadequate packaging can result in increased overall waste through product spoilage in distribution or during use. Only when it has done its job does packaging become waste.*

*Our packaging must be attractive and functional while keeping as low as possible the impact on the environment. Achieving this balance is complex but important. This is why we work with others, such as industry associations, legislators and pressure groups, to ensure we understand public concerns and provide the best solutions possible.*

*Key elements of our packaging policy include:*

- ◆ *Using design to ensure packaging does its jobs with the lowest practical use of materials*
- ◆ *Selecting packaging materials according to technical evidence of their performance*
- ◆ *Designing packaging to ease recycling and energy reclamation.*

*The majority of paper and board (approximately 70%) is corrugated board, used as transport packaging to minimize product damage and consequent losses during distribution. Corrugated board has a high-recycled content in many applications. Almost a quarter of our packaging is glass, which is widely recycled. Over 80% of the plastic is used in bottles and other rigid containers. The rest is used in laminate and flexible packaging which enables us to minimize material use while meeting the product needs of consumers.*

*Did you know that Unilever has three manufacturing plants in Missouri? Good Humor-Breyers in Sikeston, Missouri; Unilever Bestfoods in Independence, Missouri; Unilever Home & Personal Care in Jefferson City, Missouri*

*The Missouri Market Development Program thanks Unilever for helping to make this directory more valuable to Missouri residents. All information is used with Unilever's permission.*

## Missouri Department of Natural Resources Solid Waste Management Program

Post Office Box 176  
Jefferson City, MO 65102  
Toll-Free Number: (800) 361-4827  
Phone: (573) 751-5401  
Website: <http://www.dnr.mo.gov/alpd/swmp/homeswmp.htm>  
Email: [swmp@dnr.mo.gov](mailto:swmp@dnr.mo.gov)

The Solid Waste Management Program has listing of Recycling Drop-off Collection Services in Missouri. The drop-off centers are listed by county. The information includes service provider's name, phone number and materials accepted. For service provider's location and business hours, please contact service provider directly.

To obtain a copy of the listing, go to <http://www.dnr.mo.gov/alpd/swmp/rrr/RecycDOliststatewide.pdf> or call the Solid Waste Management Program at the above phone number.

## Missouri Solid Waste Management Districts

Solid Waste Management Districts (SWMD) were formed to encourage regional, city and county cooperation in proper solid waste management. Districts develop programs to encourage waste reduction, recycling, and proper disposal methods. To find out more about these activities in your area, contact the planner of your local solid waste management district.

To find out which solid waste management district you should contact go to <http://www.dnr.mo.gov/alpd/swmp/swmd/swmdinfo.htm> and click on your county or call the Solid Waste Management Program at (573) 751-5401 for contact information.

## Missouri Recycling Association

Post Office Box 2144  
Jefferson City, MO 65102  
Toll-Free Number: (866) 667-2777  
Website: [www.mora.org](http://www.mora.org)

The Missouri Recycling Association (MORA) supports waste reduction and recycling in Missouri by providing

information, educational opportunities and technical assistance in partnerships with national, state and regional organizations.

MORA provides a forum for sharing information through workshops, meetings, and an annual conference.

Members cooperate on a regional level to share experiences and encourage market development for recovered materials.

For more information or to become a member of MORA, please call 866-667-2777.

MORA membership services include: quarterly newsletter, workshops, annual conference, educational materials, memberships in the National Recycling Coalition, regional relationships and information for other state recycling associations, networking relationships with Missouri Recyclers.

## American Plastics Council

1300 Wilson Boulevard, Suite 800  
Arlington, VA 22209-2321  
Phone: (800) 2-HELP-90  
Website: [www.plastics.org](http://www.plastics.org)

### About APC

The American Plastics Council (APC) is a major trade association for the United States plastics industry working to ensure that plastics are recognized as a preferred material by actively demonstrating they are a responsible choice in a more environmentally conscious world. To accomplish our mission we demonstrate the benefits of plastic products and the contributions of the plastics industry to the society it serves. We also demonstrate that plastics are an efficient use of natural resources and that plastics and the industry are part of the solution to the public's environmental performance expectations. Our members are among the nation's largest manufacturers of plastics. APC also includes seven business units and an affiliated trade association, each comprised of APC members and customers whose purpose is to address technical and public policy issues specific to their products.

## Can Manufactures Institute

1730 Rhode Island, NW, Suite 1000  
Washington, DC 20036  
Phone: (202) 232-4677 \* Fax: (202) 232-5756  
Website: [www.cancentral.com](http://www.cancentral.com)  
Email: [webmaster@cancentral.com](mailto:webmaster@cancentral.com)

### About CMI

CMI assumes many roles to meet the industry's needs. On both the national and state level, CMI actively participates in the exchange of ideas influencing legislative, regulatory and administrative policies of interest to can makers. CMI has also conducted and sponsored several innovative studies that led to promotional campaigns seeking larger market share for the can. CMI provides a statistical service by publishing monthly and annual shipment reports by product and marketing category and serves as the industry's technical forum.

## Cellulose Insulation Manufacturers

136 South Keowee Street  
Dayton, OH 45402  
Toll-Free Number: (888) 881-2462 \* Fax: (937) 222-5794  
Website: [www.cellulose.org](http://www.cellulose.org)  
Email: [cima@cellulose.org](mailto:cima@cellulose.org)

### About CIMA

The Cellulose Insulation Manufacturers Association is the trade association for the cellulose segment of the thermal/acoustical insulation industry. CIMA was founded on July 1, 1992, when the Cellulose Industry Standards Enforcement

Program (CISEP) adopted new bylaws restructuring itself as a trade association. CISEP was established in 1982 as a voluntary program to enforce and document conformance by its participants with the Consumer Products Safety Commission regulation for cellulose insulation and the industry standards developed by the American Society for Testing and Materials (ASTM).

## Corrugated Packaging Council

## NCAT Center for Resourceful

127 North Higgins, Suite 201  
Missoula, MT 59802  
Website: [www.crbt.org](http://www.crbt.org)  
Email: [crbt@ncat.org](mailto:crbt@ncat.org)

### What is CRBT

Center for Resourceful Building Technology (CRBT) is a project of the National Center for Appropriate Technology (NCAT). CRBT is dedicated to promoting environmentally responsible practices in construction. It works to serve as both catalyst and facilitator in encouraging building technologies which realize a sustainable and efficient use of resources.

CRBT was founded in 1990 by a builder concerned about the rate of natural resource consumption in construction, and the declining quality of dimensional lumber supplied to job sites.

### What is ISRI

ISRI—the Institute of Scrap Recycling Industries, Inc.—is the trade association of the scrap processing and recycling industry. It represents 1,300 companies that process, broker, and industrially consume scrap commodities, including

metals, paper, plastics, glass, rubber, and textiles. Suppliers of equipment and services to this industry complete ISRI's membership. A primary association objective is to bring about a greater awareness of the industry's role in conserving the future through recycling and in

increasing recycling by promoting Design for Recycling®. It aims to help the scrap recycling industry develop in a sound, environmentally responsive manner and to foster public awareness of and appreciation for the value of the industry in the nation's production of goods and services. For more on ISRI check their website.

## Paperboard Packaging Council

201 North Union Street, Suite 220  
Alexandria, VA 22314  
Phone: (703) 836-3300 \* Fax: (703) 836-3290  
Website: [www.ppcnet.org](http://www.ppcnet.org)  
Email: [paperboardpackaging@ppcnet](mailto:paperboardpackaging@ppcnet)

### What is PPC

The Paperboard Packaging Council (PPC) is the leading trade association representing the manufacturers of paperboard packaging in the United States. The PPC was formed in 1967 when the Folding Paper Box Association of America (founded in 1933) merged with the Institute of Better Packaging (founded in 1929). The PPC serves as the voice of the industry, promotes the many benefits of its products and provides critical industry information for its members.

## Plastic Loose Fill Council

Post Office Box 21040  
Oakland, CA 94620  
Phone: (510) 654-0756 \* Fax: (510) 654-0196  
Website: [www.loosefillpackaging.com](http://www.loosefillpackaging.com)

### About the Plastic Loose Fill Council

The Plastic Loose Fill Council was founded in 1991 to promote the reuse of polystyrene loose fill, commonly known as "packing peanuts." The Council's Peanut Hotline is one of the country's most successful material reuse programs.

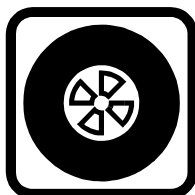

The Peanut Hotline, 800-828-2214, is the national reuse program for plastic packing peanuts. Consumers can drop off their leftover plastic packing peanuts at Peanut Hotline collection sites. There are over 1,500 collection sites in the U.S.

# NationalResources

## Recycling Research Institute

215 Davis Avenue SW  
Post Office Box 4430  
Leesburg, VA 20177  
Phone: (571) 258-0500 \* Fax: (571) 258-0502  
Website: [www.scraptirenews.com](http://www.scraptirenews.com)  
Email: [mary@scraptirenews.com](mailto:mary@scraptirenews.com)

### About RRI

Recycling Research Institute, Suffield, CT (RRI) develops and disseminates information concerning the recovery, reuse, recycling and proper disposal of scrap tires and scrap rubber.

In addition to publishing Scrap Tire News, the company produces and publishes the Scrap Tire & Rubber

Users Directory—a nationally acclaimed business reference book for the scrap tire and rubber recycling industry.

## Rubber Manufacturers Association

1400 K Street, NW, Suite 900  
Washington, DC 20005  
Phone: (202) 682-4880 \* Fax: (202) 682-4854  
Website: [www.rma.org](http://www.rma.org)  
Email: [info@rma.org](mailto:info@rma.org)

### About RMA

RMA is the national trade association for the rubber products industry. Its members include more than 100 companies that manufacture various rubber products, including tires, hoses, belts, seals, molded goods, and other finished rubber products.

RMA members employ over 120,000 workers and account for more than \$21 billion in annual sales.

## Secondary Materials & Recycled Textiles Assoc.

7910 Woodmont Avenue, Suite 900  
Bethesda, MD 20814  
Phone: (301) 656-1077 \* Fax: (301) 656-1079  
Website: [www.smartasn.org](http://www.smartasn.org)  
Email: [smartasn@erols.com](mailto:smartasn@erols.com)

### About SMART

Founded in 1932, the Secondary Materials and Recycled Textile Association (SMART) is composed of companies from the U.S., Canada, Mexico, South and Central America, Europe, and Pacific Rim countries who are involved in every phase of the textile industry.

These companies are involved with the grading and sorting of mixed post consumer textiles for the wiping materials and used clothing markets. Some are manufacturers and converters of nonwoven and paper products; sorters and distributors of new textile products and

by-products; manufacturers of textiles and many other types of companies. Still others deal in mill ends, remnants, fibers and related materials. All have realized the benefits of being involved with a truly international trade association dedicated to serving and promoting this dynamic industry.

## Steel Recycling Institute

680 Andersen Drive  
Pittsburgh, PA 15220  
Phone: (412) 922-2772 \* Fax: (412) 922-3213  
Website: [www.recycle-steel.org](http://www.recycle-steel.org)  
Email: [sri@recycle-steel.org](mailto:sri@recycle-steel.org)

### About SRI

The Steel Recycling Institute (SRI), a unit of the American Iron and Steel Institute, is an industry association that promotes and sustains the recycling of all steel products.

The SRI educates the solid waste industry, government, business and ultimately the consumer about the benefits of steel's infinite recycling cycle.

# NationalResources

## The Solid Waste Association of North America

1100 Wayne Avenue  
Post Office Box 7219  
Silver Spring, MD 20907  
Toll-Free Number: (800) 467-9262 \* Fax: (301) 589-7068  
Website: [www.swana.org](http://www.swana.org)  
Email: [info@swana.org](mailto:info@swana.org)

### About SWANA

When you see the SWANA logo, these three words appear just beneath it—educate, innovate, communicate. They're much more than just a catchy tag line. They're a firm statement of SWANA's commitment to the people who work in the solid waste profession.

"Advancing the practice of environmentally and economically sound management of municipal solid waste in North America."

-mission of SWANA

## The United States Conferences of Mayors

1620 Eye Street, NW  
Washington, DC 20006  
Phone: (202) 293-7330 \* Fax: (202) 293-2352  
Website: [www.usmayors.org](http://www.usmayors.org)  
Email: [sjarvis@usmayors.org](mailto:sjarvis@usmayors.org)

### About USCM

The U.S. Conference of Mayors is the official nonpartisan organization of cities with populations of 30,000 or more. There are 1,183 such cities in the country today. Each city is represented in the Conference by its chief elected official, the mayor.

The primary roles of the Conference of Mayors are to:

- Promote the development of effective national urban/suburban policy;
- Strengthen federal-city relationships;
- Ensure that federal policy meets urban needs;
- Provide mayors with leadership and management tools; and
- Create a forum in which mayors can share ideas and information.

## Tire Retread Information Bureau

900 Weldon Grove  
Pacific Grove, CA 93950  
Toll-Free Number: (888) 473-8732 \* Fax: (831) 372-9210  
Website: [www.retread.org](http://www.retread.org)  
Email: [info@retread.org](mailto:info@retread.org)

### About TRIB

TRIB is a non-profit, member supported industry association with hundreds of members in North America and in many countries around the globe. Our goal is to provide the motoring public (both in the private and public sectors) with the most up-to-date information about the economic and environmental benefits of tire retreading and tire repairing.

If you wish to purchase retreaded tires, the RETREAD TIRE BUYERS GUIDE lists vendors and the types of retreaded tires they sell in the USA, Canada, Mexico, and around the world.

## US Composting Council

200 Parkway Drive, Suite 310  
Hauppauge, NY 11788  
Phone: (631) 864-2567 \* Fax: (631) 864-3796  
Website: [www.compostingcouncil.org](http://www.compostingcouncil.org)  
Email: [admin@compostingcouncil.org](mailto:admin@compostingcouncil.org)

### About USCC Organization

The USCC is a non profit (501.c.6) national organization with approximately 200 members. The Council also directs the Composting Council Research and Education Foundation (CCREF) a 501.c.3 charitable foundation, which administers public and private research and education grant activities. The USCC is the only national organics recycling organization committed to the advancement of the composting industry.

# The Missouri Market Development Program

## Who We Are

The Missouri Market Development Program was created to promote the development of markets for recovered materials and recycled products in Missouri. We do this by providing financial incentives, technical assistance, consulting and informational services to businesses, governments and other organizations.

Read more about what we do and the services we offer. If you need more information or have questions, please call us at (573) 526-5555.

## Financial Assistance

The program's financial assistance is targeted toward developing and expanding manufacturing capacity in the state by assisting businesses with the purchase of equipment needed to enable manufacturing facilities to use recovered materials.

Any individual, private business, non-profit organization or public institution operating or proposing to operate in Missouri is eligible to apply. Eligible projects include those resulting in:

- ◆ **The final processing or conversion of recovered materials into industrial feedstock; or**
- ◆ **The manufacture of products from those feedstocks.**

Currently the maximum amount of financial assistance for any one project is \$50,000 or 75% of the total project cost.

To request a copy of the financial assistance application, please contact:

The Missouri Market Development Program  
Post Office Box 744  
Jefferson City, MO 65102-0744  
Phone: (573) 526-5555  
Email: [rita.cade@dnr.mo.gov](mailto:rita.cade@dnr.mo.gov)

## Technical Assistance

Technical Assistance is provided to businesses through the Missouri Market Development Program to increase the use of recovered materials in manufacturing, marketing, and purchasing.

Our technical assistance projects help to increase the competitiveness of businesses through sales increase, cost savings, capital investment and/or jobs created or retained.

## Informational Services

The Missouri Market Development Program also provides a wide array of informational services to business, governments and other organizations to promote the development of markets for recovered materials. Besides publications such as newsletters and this directory, staff are available to make presentations or to provide consultations to manufacturers, purchasers, marketers or distributors in areas such as:

- ◆ **Locating sources of recycled-content feed stock;**
- ◆ **Procuring feedstock in a cost effective manner;**
- ◆ **Developing business plans;**
- ◆ **Developing marketing plans; and**
- ◆ **Educating purchasers and vendors about the cost/benefit of recycled content products.**

The Missouri Market Development Program is administered by the Environmental Improvement and Energy Resources Authority in cooperation with The Department of Natural Resources and the Department of Economic Development. Some of our services are provided through partnerships with the University of Missouri Outreach and Extension and Missouri Enterprises Business Assistance Center.
